NoFlex products are to be used as non-structural:

1. freestanding partial height and low walls, walls attached only at one end.
2. wall stiffener under large openings and large windows (keep lower wall from twisting or failing under the weight)

Sheet1

3. wall stiffeners for strike and hinge side of heavy doors and doors with heavy use
5. to frame out freestanding walls forming offices, partition walls without moving the lights, HVAC duct work or fire sprinklers
6. quickly erect temporary or permanent hand rails
7. Build the new partial height wall over carpet without removing it with minimal mess or disruption of the tenant
